FULL STACK WEB DEVELOPER

I am a dedicated software developer with 2.5 years of experience in full-stack web development, specialising in building and maintaining web applications.

Along with hands-on coding, I have experience managing small teams, conducting code reviews, writing detailed and relevant documentation, and communicating effectively with clients to deliver high-quality solutions.

I am passionate about learning, and I continuously stay up to date with industry trends. I am always open to working with new technologies.

WORK EXPERIENCE

Full Stack Web Developer – Dealer Studio   May 2023 - Current

- Developed responsive & performance optimised web applications using **JavaScript, TypeScript, React.js, Next.js, HTML, & CSS/SCSS**.
- Built and managed back-end systems with **Ruby on Rails & PostgreSQL**, including **API integrations** and **database design**.
- Collaborated with colleagues through **code reviews, end-to-end testing & documentation**, ensuring adherence to coding standards and best practices for maintainable, **high-quality code**.
- Worked closely with **clients** to understand requirements and deliver **high-quality web solutions**.
- Delivered projects **on schedule** from **technical design to launch.**
- Applied **Agile methodologies**, managing tasks and progress with **Jira** and **Confluence**.

Web Development Intern – SurryHQ   Nov 2022 - May 2023

- Contributed to the development and maintenance of the SurryHQ website, building UI components with **JavaScript, HTML, CSS, React**, and **SASS**.
- Gained hands-on experience with **Git & GitHub, unit testing**, and modern technologies like **Redux.js** and **Bootstrap** to ensure high-quality code and performance.
- Worked both independently and with a team to solve complex problems, ensuring **web accessibility** (WCAG) compliance and **responsive design**.
- Countless **bug fixes.**

EDUCATION

- Dec 2022 - Mar 2023   **CS50x: Harvard's Intro To Computer Science**
  Harvard University
- Jan 2022 - Mar 2023   **Full Stack Engineer Course**
  Codecademy.com
